

Iberia Industrial Development Foundation

Dear IDF member-

Like every business owner or leader, we have spent the last several days and weeks learning about the coronavirus and how it could impact our community. For the Iberia Industrial Development Foundation, that means understanding how it affects our members, our government agencies and the businesses in our community and then making the necessary adjustments to our work and operations. We have a few simple objectives. We care about continuing to assist you with your business and agency needs while keeping our employees and families safe. With that in mind, we want to share our plans for the next few weeks, if the need arises.

Our office will remain open until we are directed that we must close from the authorities. If this need arises, we are set up to work remotely. We will adapt and modify to fit the directives of the government while satisfying the needs of you – our members. The use of email, cell phones and the internet will allow us to carry out most business that is required. We will use a conferencing application and/or software to hold our meetings virtually. You will learn more about that in the coming days.

We are here for you. We are part of this community, and we know you may need us before, during and after this historic event. We are monitoring the approval of the stimulus package and will do our part to share the information and provide assistance. Louisiana Economic Development has already collected data from us to certify our parish for the SBA Disaster Loans. All of these steps will be necessary for our community to recover from this disaster.

If you have any questions or concerns, please send an email to either me or Mike, or pick up the phone, and give us a call. Thanks as always for being a part of the IDF family.

Best regards,

Fran Henderson, Chairman

Mike Tarantino, President and CEO
